

## CASE STUDY – MR AND MRS COWAN, CHILWORTH, HAMPSHIRE

**“Relaxing in our hot tub without the buffeting of the elements adds to the magic”**

Mr and Mrs Cowan believe that their SOLARDOME® Retreat is the perfect hot tub enclosure.

Set in lovely grounds away from the house, the position of the dome allows them to enjoy the best of the sunshine and beautiful views of the garden, all whilst relaxing in their hot tub. As well as the in-ground hot tub, the 6.11m diameter glass dome hosts a dining table and chairs, sun loungers, shower and lots of tropical plants.

Mr Cowan comments: “planning outdoor events for us British is a lottery at best. When you get 20 or so people planning to come for the day and the weather turns nasty, what would you do? Another day abandoned unless you can offer a venue that is weather and storm proof like our Solardome® hot tub enclosure.”

As well as providing a unique entertaining space, the dome is the ideal place to enjoy those quieter times, such as lazy breakfasts and romantic suppers. It creates somewhere protected from the elements, where they can truly relax all year round.

Mr Cowan continues: “My family and I spend lots of lovely evenings in our dome hot tub enclosure. We set out candles that reflect in the panes of glass, creating a kaleidoscope effect. Relaxing in our hot tub without the buffeting of the elements adds to the magic. We can see the clouds and stars overhead

when there is a moon to light them and we have even watched freezing snow fall on the glass panes without lowering the temperature inside.”
