

Revolutionise your outdoor dining space

The ultimate design feature

Our geodesic domes offer an inspiring and unique space for your outdoor premises. They provide modern and long-lasting solutions to host bubble groups safely.

From gourmet meals to afternoon tea, our glasshouses create an instant 'wow' factor, allowing you to offer unrivalled dining experiences in all weathers, while keeping parties separate, in line with social distancing measures.

“The domes are a fantastic asset to our business, and the return on investment has been substantial.”

Tom Howe, Operations Manager, Jimmy's Lodge

Designed to inspire your guests

Solardome® POD | 3.6m diameter

The POD provides a versatile pop-up dome for your outdoor space. With a capacity of up to 10 people, this glasshouse offers a practical and cost-effective solution. Its compact, simple design makes for easy assembly and can be a temporary or permanent structure.

Solardome® Haven | 4.6m diameter

Our impressive Haven model provides a modern alternative to a traditional restaurant conservatory or function room. Holding up to 15 people, this dome is perfect for any alfresco dining experience.

Glass domes

For bringing the natural world inside

Solardome® glasshouses enable 360-degree views of the surroundings in a light and airy, yet robust structure. Made with a corrosion resistant aluminium frame, toughened glass panels, opening windows and a secure lockable door, our quality domes are designed to last for decades. With a range of larger domes available, we can also create dome experiences for parties, weddings, or large corporate events.
